PROJECT EXPERIENCE

Local Produce — Web Application

- Collaborated with a team of 5 students to build a web application using SpringBoot and Hibernate.
- Designed and developed a virtual farmer's market that connects St. Louis area shoppers with local farmers.

Enough! Say Their Names — Project Coordinator

- Participated in project design meetings and suggested improvements in a promotional website for a poetry anthology.
- Worked with the developers for the WordPress site and the storefront to create a better user experience.

WORK EXPERIENCE

Teaching Assistant — LaunchCode, St. Louis, MO

May 2020- November 2020

- Managed teams for pair programming and led weekly studios and code reviews in a fully remote work environment.
- Provided constructive feedback to students and graded projects in a full-stack web development LC101 course.

Risk Control and Audit Specialist 2 — U.S. Bank, St. Louis, MO

September 2015-present

- Created reference materials used by Small Business Administration agents to identify potentially overfunded Paycheck Protection Program loans. Earned a 2020 Silver Shield Award.
- Updated all content in the application used for residential mortgage modification testing, reducing agent exceptions by 70%.
- Produced documentation for all processes handled by the Quality Management group and conducted training sessions for new employees and offshore contractors.

Relationship Manager — U.S. Bank, St. Louis, MO

- Explained the details, requirements, and impact of mortgage modification programs to borrowers at risk of foreclosure.
